PROFESSIONAL SUMMARY

Graduate of Computer Science and creative UX/UI Developer with experience facilitating and supporting human interactions with complex systems and software. Maintains user-centric designs while adhering to prescribed interface principles and related development goals. Dedicated to creating inviting and user-friendly interfaces for everything from simple open-source applications to complex proprietary systems.

WORK HISTORY

IT Support Technician, 06/2016 - 09/2016

DigiWorld Hanoi, Hanoi, Vietnam

- Gather information and technical requirements from 100+ customers.
- Installed, configured, and upgraded multiple applications on IOS and Android devices.
- Answered customers' questions on technical difficulties and concerns.
- Communicated with customers through email, telephone, and face to face.

Math Tutor, 06/2017 - 08/2017

Viet Tutoring Center, Hanoi, Vietnam

- Created special handouts, study guides, and enrichment materials to boost student knowledge of math concepts.
- Collaborated with students to complete homework assignments, identify areas for improvement, and meet learning goals.
- Designed individual math tutoring programs for students with comprehensive lesson plans, exams, and final projects to showcase their grasp of the material.

Operations Center Representative, 04/2021 - 06/2022

Dixon Recreation Center, Corvallis, OR 97333

- Assist program participants and facility users regularly, on the phone and in person, with all aspects of the Department of Recreational Sports programs; making referrals to appropriate areas as needed.
- Use Recreation Management Software to verify participant eligibility, monitor access, and provide data for entry to Recreational Sports facilities.
- Responsible for cash and credit card transactions for memberships and guest passes.
- Provide positive public relations, program promotion, and policy education to participants pertaining to all department areas and programs.
- Execute all emergency procedures and provide First Aid and CPR assistance.

Undergraduate Teaching Assistant, 12/2021 - 03/2022

Oregon State University, Corvallis, OR 97333

- Provided IT instruction for college-level Engineering courses and managed engineering projects.
- Work with more than 50 students to help them understand engineering concepts needed to complete their assignments.
- Assist students, individually or in groups, with lesson assignments to present or reinforce learning concepts.
- Collaborate and coordinate with other TAs to give presentations, lead assessment activities and discussions in studio sessions.
- Help students develop advanced professional and communication skills in an engineering design team setting.

SKILLS

- User Interface (UI) design
- Web-Based Software Engineering
- Detail-oriented
- Collaboration
- Agile development methodologies
- Mobile application development

- Attend scheduled meetings with the professor and other TAs to discuss assigned duties and coordinate instructional efforts.

Undergraduate Learning Assistant, 3/2021

Oregon State University, Corvallis, OR 97333

- Lead discussion sections for students to understand Computer Science concepts including algorithms and visualizations using Python language.
- Review subject materials on algorithms and conduct live programming demo to explain material.
- Assist students, individually or in groups, with programming assignments to present or reinforce Python concepts.
- Collaborate and coordinate with other TAs to lead weekly studio sessions and provide assistance to students.
- Attend weekly meetings with the professor and other TAs to discuss assigned duties and improve course materials.

EDUCATION

Bachelor of Science, Computer Science and Psychology
Oregon State University - Corvallis, Oregon

06/2022

Bachelor of Science, Computer Science
Universal Of Liverpool - Liverpool, United Kingdom

06/2016

RELATED PROJECTS

Pour Souls Systems App

- Built responsive app using Flutter, Node and MongoDB that takes advantage of that Pour Souls System's electronic beer taps to provide analytics to bar owners to help them gain insights about their business.
- Responsible for designing the user interface of the application, which follows the basic design principles while respecting the identity of the Pour Soul Systems brand.
- Implemented functions to load data into the database and return user information.
- Implemented and style the keg details screen for the application.
- Implemented and adapted Auth0 for the Login feature of the application.

HONORS

- Liverpool International College Scholarship, Spring 2015
- University of Liverpool Scholarship, Fall 2015
